ASX RELEASE

23 November 2011

HUCKITTA EXPLORATION RESULTS AND PLAN FOR 2012 IN BOARDROOM RADIO INTERVIEW

Base metals explorer Mithril Resources (ASX:MTH) is pleased to provide investors with an opportunity to listen to an audio interview with Mithril Resources Managing Director Graham Ascough on Boardroom Radio (BRR).

To listen to the information session, please visit the following website address: brr.com.au/event/89635. The interview can also be accessed at The Australian's Business website. The interview will be available from 9.30am AEDT.

The interview outlines the new copper prospects identified and recent exploration results at the Company's Huckitta Project in the Northern Territory. It also details plans for 2012 at Huckitta and in the Pilbara region where the Company has also reported a number of new prospects.

Mithril Resources Ltd is an Australian exploration company focused on the discovery and development of base metal deposits primarily nickel and copper. Mithril is a frontier explorer with a small but highly experienced team based in Adelaide. Combining advanced technology with a proven field-based approach ensures the bulk of the company's expenses go directly into the ground. This is yielding excellent results and Mithril's recent discovery of the Basil Copper Prospect at its Huckitta Project has the potential to deliver a large tonnage, near surface deposit.
