1. DETAILS OF THE OFFER

1.1 General

This Prospectus invites Eligible Shareholders to participate in a pro-rata non-renounceable Rights Issue on the basis of 5 New Shares for every 6 Shares held on the Record Date at an issue price of \$0.005 per New Share.

If no Vested Options are exercised prior to the Record Date and all of the Eligible Shareholders take up their Entitlement in full, then:

- (a) 191,994,781 New Shares will be offered under the Rights Issue; and
- (b) the amount of \$959,974, before costs, will be raised by the Company from the Rights Issue.

If in the unlikely event that all Vested Options are exercised prior to the Record Date, then 201,069,781 New Shares will be offered under the Rights Issue, and an additional \$45,375 (before costs) will be raised if Eligible Shareholders take up their Entitlements in full.

1.2 Additional Shares

Eligible Shareholders who take up their full Entitlement may also apply for Additional Shares. Applications for Additional Shares may be considered if not all of the Offer Shares are taken up by the Eligible Shareholders under the Offer. Applications for Additional Shares will be satisfied prior to the Shortfall Offer referred to in Section 1.14. Additional Shares will be issued at the discretion of the Directors and, as a result, there is no guarantee that you will receive Additional Shares.

In the event that Entitlements are not taken up in full, Eligible Shareholders who have taken up all of their Entitlement and have made an application for Additional Shares may be allocated Additional Shares as follows:

- (a) the number of Additional Shares allocated to an Eligible Shareholder who has applied for Additional Shares will be at the discretion of the Directors;
- (b) the Directors reserve the right to allocate Additional Shares to Eligible Shareholders in part or not at all; and
- (c) an Eligible Shareholder will not receive more Additional Shares than they have applied for.

There is no guarantee that Eligible Shareholders will be successful in being allocated any of the Additional Shares that they may apply for. If an application for Additional Shares is scaled back or the Directors decide not to issue Additional Shares to an Eligible Shareholder, then the Application Monies for those Additional Shares which are not issued to the applicant will be returned to the applicant without any payment of interest.

1.3 Your Entitlement and trading of Entitlements

Your Entitlement is shown in the accompanying Entitlement and Acceptance Form.

In the calculation of any Entitlement, fractions will be rounded up to the nearest whole number and, for this purpose, holdings in the same name will be aggregated for calculation of Entitlements.

The Rights Issue is being made on a non-renounceable basis, meaning that Entitlements cannot be transferred or sold.

1.4 **Minimum Subscription**

There is no minimum subscription for the Offer.

1.5 **Underwriting**

The Offer is fully underwritten by the Underwriter. Refer to Section 4.4 for details of the terms of the underwriting.

1.6 **Opening Date and Closing Date**

The Rights Issue will open on 27 November 2018 (**Opening Date**) and close at 5.00 pm Adelaide time on 13 December 2018 (or such later date as the Directors, in their absolute discretion and subject to compliance with the Listing Rules, may determine) (**Closing Date**).

Completed Entitlement and Acceptance Forms must be received at the Company's Share Registry by the Closing Date, together with payment, in Australian dollars, for the amount of the application.

1.7 **How to take up your Entitlement**

Under the Rights Issue, you may apply for 100% of your Entitlement or for a portion less than your Entitlement, by using the personalised Entitlement and Acceptance Form mailed to you with this Prospectus.

The Entitlement and Acceptance Form details your Entitlement and should be completed in accordance with the instructions set out on its reverse side.

You should allow sufficient time to ensure that your Entitlement and Acceptance Form reaches the Share Registry by the specified time by 5.00 pm (Adelaide time) on the Closing Date, being 13 December 2018 unless extended by the Directors.

1.8 **Use of Funds**

The purpose of the Offer is to raise up to approximately \$959,974. The gross proceeds of the Rights Issue are intended to be used for the purposes and in the amounts set out in the table in Section 2.1.

1.9 **Issue and Allotment of New Shares**

The allotment of New Shares will take place as soon as practicable after the Closing Date.

The New Shares will be issued fully paid and, from the date of issue, will rank equally in all respects with Shares. A summary of the rights attaching to the New Shares is set out in Section 4.1.

By returning your Entitlement and Acceptance Form, you agree to comply with the Constitution in respect of the New Shares issued to you.

Until the issue and allotment of the Offer Shares the Application Monies will be held on trust in a separate bank account opened and maintained for that purpose only. Any interest earned on the Application Monies will be for the benefit of the Company and will be retained by it irrespective of whether allotment of the Offer Shares takes place. No allotment of Offer Shares will take place until the proceeds of the Rights Issue have been received and ASX grants permission to quote the New Shares.

1.10 **ASX Quotation**

The Company will make application to ASX within 7 days following the date of this Prospectus for the grant of official quotation of the New Shares.

Quotation of the New Shares, if granted by ASX, will commence as soon as practicable after statements of holdings for the New Shares are dispatched.

If approval for official quotation is not granted by ASX within 3 months after the date of this Prospectus, the Company will not allot or issue any New Shares and will repay all Application Monies (where applicable) within the time prescribed under the Corporations Act, without interest.

That the New Shares have been admitted to quotation on ASX is not to be taken in any way as an indication of the merits of the Company or the New Shares.

1.11 **Overseas Shareholders**

The New Shares being offered under this Prospectus are being offered to Eligible Shareholders with registered addresses in New Zealand in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.

The Company believes it is unreasonable to extend the Offer to Ineligible Shareholders. The Company has formed this view having considered:

- (a) the small number of Ineligible Shareholders;
- (b) the number and value of the securities that would be offered to Ineligible Shareholders; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, the Offer under this Prospectus is not made to Ineligible Shareholders (as defined in Section 6).

1.12 **Risks associated with not accepting your Entitlement**

It is important that Eligible Shareholders understand the risks associated with not accepting their Entitlement.

If you elect not to accept your Entitlement in full under this Prospectus, your Shareholding in the Company will be diluted. Please carefully consider whether to accept your Entitlement and, if you are in doubt as to whether to accept, you should consult your independent professional investment adviser.

1.13 **Brokerage and stamp duty payable on subscription under Entitlement**

No brokerage or stamp duty will be payable by you in respect of a subscription for New Shares under your Entitlement.

1.14 **Shortfall Offer**

New Shares not taken up by Eligible Shareholders (including pursuant to applications for Additional Shares) will form part of the Shortfall Offer (which is a separate offer made under this Prospectus and will remain open after the Closing Date). The issue price of any Shares offered pursuant to the Shortfall Offer will be \$0.005 each, being the same price as the New Shares offered to Eligible Shareholders pursuant to the Offer. Shortfall Shares will only be issued if the Offer is undersubscribed. In such circumstances, the Directors and the Underwriter reserve the right to place the Shortfall at their discretion within 3 months after the close of the Offer, subject to the Listing Rules and to any other applicable law.

Allotment of Shortfall Shares under the Shortfall Offer may occur on a progressive basis at any time on or after the date of allotment of New Shares under the Offer.

1.15 **Tax implications**

The Company makes no representation and provides no advice in relation to the tax consequences for any Shareholder of taking up their Entitlement under the Offer. Shareholders should seek professional taxation advice about the tax consequences of taking up the Entitlement.

1.16 **CHESS**

The Company will not be issuing share certificates. The Company will apply to ASX to participate in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of New Shares allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number (HIN) or Shareholder Reference Number (SRN) and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

1.17 **Enquiries**

Any questions concerning the Offer should be directed to the Company Secretary at the Company's registered office or by telephoning him on (08) 8133 5000.

1.18 The Company's regular reporting and disclosure requirements

The Company is a 'disclosing entity' for the purposes of Part 1.2A of the Corporations Act. As a disclosing entity, the Company is subject to regular reporting and disclosure obligations. Broadly, these obligations require:

- (a) the preparation of both yearly and half yearly financial statements, a report on the operations of the Company during the relevant accounting period together with an audit or review report by the Company's auditor;
- (b) any half year financial report lodged with ASIC by the Company after lodgement of the above financial report and before the lodgement of the copy of the Prospectus with ASIC; and
- (c) immediate notification to ASX of any information concerning the Company which it becomes aware of and which a reasonable person would expect to have a material effect on the price or value of the Shares, subject to certain exceptions.

Copies of any documents in relation to the Company which are lodged with ASIC may be obtained from, or inspected at, an ASIC office. ASX maintains a file of all announcements lodged with it by the Company. Copies of documents lodged by the Company with ASX can be found on ASX's website, www.asx.com.au and on the Company's website, www.mithrilresources.com.au.

During the period that the Offer remains open, the Company will provide copies of the following to any person on request, free of charge:

- (a) the Company's annual financial report for the year ended 30 June 2018;
- (b) any half-year financial report lodged with ASIC by the Company after the lodgement of the annual financial report for the year ended 30 June 2018 and before the lodgement of this Prospectus at ASIC; and
- (c) any continuous disclosure notices used to notify ASX of information relating to the Company between 26 September 2018 (being the date of lodgement with ASIC of the annual financial report referred to in paragraph (a)) and the date of lodgement of this Prospectus. The documents listed in Schedule 1 to this Prospectus were lodged by the Company with ASX during this period.

All requests for copies of the above documents should be addressed to the Company Secretary.

2. PURPOSE AND EFFECT OF THE RIGHTS ISSUE ON THE COMPANY

2.1 Purpose of the Rights Issue

The purpose of the Rights Issue is to raise up to \$959,974 before expenses. Expenses related to the Offer are expected to be approximately \$160,826.

The gross proceeds to be raised from the Offer are planned to be used in accordance with the table set out below:

Use of proceeds if full amount raised	\$	%
Expenses related to the Offer	\$160,826	17%
General working capital and administration expenses	\$275,621	29%
Expenses relating to the Company's Billy Hills (Zinc) Project and Kurnalpi (Nickel) Project	\$511,866	54%
TOTAL	\$948,313	100%

There is no minimum subscription under the Offer. If less than 191,994,781 New Shares are issued pursuant to the Rights Issue, then the Company will raise less than \$959,974. In this case, it is intended that the gross proceeds of the Rights Issue will be used in accordance with the table set out below:

Use of proceeds if less than full amount raised	\$
Expenses related to the Offer	The first \$160,826
General working capital and administration expenses	The next \$275,621
Expenses relating to the Company's Billy Hills (Zinc) Project and Kurnalpi (Nickel) Project	The balance of the proceeds raised

The above tables are a statement of current intentions as at the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the proceeds are ultimately applied. The Board reserves the right to alter the way proceeds are applied on this basis.

2.2 Principal effect of Rights Issue

If no Vested Options are exercised prior to the Record Date and if all of the Eligible Shareholders take up their Entitlement in full, then the principal effect of the Rights Issue on the Company will be that:

- (a) cash reserves and contributed equity of the Company will increase by approximately \$959,974 before deducting the expenses of the Rights Issue; and
- (b) the number of Shares on issue will increase by 191,994,781 from 230,393,737 shares to 422,388,518 shares.

If in the unlikely event that 100% of the Vested Options are exercised prior to the Record Date and all Entitlements are taken up, then the principal effect of the Rights Issue on the Company will be that:

- (a) cash raised would be \$45,375 from the exercise of the Vested Options and up to approximately \$1,005,349 from the Rights Issue before deducting the expenses of the Rights Issue; and
- (b) the number of Shares on issue will increase by 201,069,781 from 241,283,737 to 442,353,518.

2.3 Impact on capital structure

(a) Undiluted

At the Record Date, the Company expects to have 230,393,737 Shares on issue.

Assuming no Vested Options are exercised prior to the Record Date and no Shares are issued prior to the Record Date, then if all of the Eligible Shareholders take up their Entitlement in full the New Shares issued pursuant to this Prospectus will be 191,994,781 or approximately 83.33% of the expanded issued capital, and the total Shares on issue after the Rights Issue will be 422,388,518.

(b) Diluted

The Company has 10,890,000 Vested Options on issue which have not been exercised at the date of this Prospectus. The details of Options on issue are:

Table 2: Options on Issue

Amount	Vested / Not Vested	Expiry	Exercise Price

140,000	Vested	19/06/2019	\$0.150
650,000	Vested	21/04/2019	\$0.050
500,000	Vested	17/11/2020	\$0.100
300,000	Vested	31/12/2020	\$0.100
1,000,000	Vested	31/12/2020	\$0.100
1,000,000	Vested	31/12/2020	\$0.100
300,000	Vested	22/06/2020	\$0.100
4,000,000	Vested	10/10/2021	\$0.010
3,000,000	Vested	10/10/2021	\$0.010

As noted in Section 1, only holders of Vested Options who have exercised their Options and been issued Shares prior to the Record Date are entitled to participate in the Rights Issue.

If 100% of the Vested Options are exercised prior to the Record Date, the number of fully paid ordinary Shares on issue will increase by 10,890,000 from 230,393,737 to 241,283,737 before the Rights Issue. If all Entitlements are taken up, the number of fully paid ordinary Shares on issue will increase by 201,069,781 from 241,283,737 to 442,353,518 after the Rights Issue.

The pro-forma capital structure of the Company following the Rights Issue on both an undiluted, and fully diluted basis for the 10,890,000 Vested Options, is set out below:

Issued Capital	Undiluted	100% Diluted
Expected Shares on issue as at the Record Date	230,393,737	241,283,737
New Shares to be issued pursuant to this	191,994,781	201,069,781

Prospectus		
Total Shares on issue following the Rights Issue	422,388,518	442,353,518
Vested Options on issue	10,890,000	Nil
Unvested Options on issue	Nil	Nil

2.4 Effect on control of Company

The Offer is not expected to have any material impact on control of the Company.

No Shareholder currently holds 5% or more of the total issued Shares in the Company, and no Shareholder will, after completion of the Offer hold 5% or more of the issued Shares in the Company, unless the Offer is undersubscribed and a substantial Shareholder is issued Shortfall Shares (or Shares via the Underwriter).

2.5 Financial Effect of the Offer

The effect of the Offer on the Company's financial position if all of the Eligible Shareholders take up their Entitlements in full (and none of the Vested Options are exercised prior to the Record Date) will be to increase consolidated net assets and consolidated total equity by \$799,148 after payment of the cash expenses of the Rights Issue which are estimated at \$160,826. It is intended that these funds will be applied as set out in Section 2.1.

If all of the Vested Options are exercised prior to the Record Date and all of the Eligible Shareholders take up their Entitlements in full, then the consolidated net assets and consolidated total equity will increase by \$844,523 after payment of the cash expenses of the Rights Issue which are estimated at \$160,826. An additional \$45,375 would be raised from the exercise of the Vested Options.

2.6 Pro-forma Statement of Financial Position as at 15 November 2018

To illustrate the effect of the Offer on the Company, the following unaudited pro-forma statement of the Company as at 15 November 2018 has been prepared on the basis of the Company's unaudited statement of financial position as at 30 June 2018 on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position..

The pro-forma balance sheet has been prepared assuming all Entitlements are accepted, all Placement Shares are issued prior to the Record Date and no Options are exercised prior to the Record Date, and includes expenses of the Offer and the proceeds from the Placement. The balance sheet as at 30 June 2018 from the Company's Annual Financial Report and the pro-forma balance sheet as at 15

November 2018 shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

3. RISK FACTORS

3.1 General

The Company's activities are subject to a number of risks which may impact respective future financial performance and the market price at which New Shares trade. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, others are outside the Company's control and cannot be mitigated. Therefore, investors who acquire New Shares may be exposed to a number of risks. Broadly, these risks can be classified as risks general to investing in the share market and risks specific to an investment in Shares and the Company's underlying business.

This Section sets out the identified major risks associated with investing in New Shares. This list is not exhaustive and investors should read this Prospectus in its entirety before making an investment decision. Investors should also have regard to their own investment objectives and financial circumstances, and should consider seeking appropriate independent investment advice before deciding whether to invest in New Shares.

3.2 Specific Risks

(a) Mineral Exploration

Mineral exploration is inherently associated with risk. Notwithstanding the experience, knowledge and careful evaluation a company brings to an exploration project there is no assurance that recoverable mineral resources will be identified. Even if identified, other factors such as technical difficulties, geological conditions, adverse changes in government policy or legislation or lack of access to sufficient funding may mean that the resource is not economically recoverable or may otherwise preclude the Company from successfully exploiting the resource.

(b) Reliance on Key Personnel

The Company's Directors have significant experience in the mining exploration industry. If growth objectives are to be met, this will depend on the ability of the Directors to implement the current exploration strategies and to adapt, where necessary, to accommodate and manage any unforeseen difficulties. The Company relies heavily on the experience of its Directors. The loss of the services of certain personnel could have an adverse effect on the Company and its activities.

(c) Commodity and Currency Price Volatility

Commodity prices are subject to influencing factors beyond the control of the Company and can be subject to significant fluctuations. Just some of these influencing factors include:

- (1) world demand for particular commodities;
- (2) the level of production costs in major commodity producing regions; and

- (3) expectations regarding inflation, interest rates and exchange rates.

Any significant and/or sustained fluctuation in exchange rates or commodity prices could have a materially adverse effect on the Company's operations and its financial position.

(d) **Additional Requirements for Capital**

The funds raised by the Rights Issue will be used to carry out work on the Company's Billy Hills (Zinc) Project and Kurnalpi (Nickel) Project. If the Company incurs unexpected costs or is unable to generate sufficient operating income, further funding may be required. The Company may require additional funding to carry out further exploration, undertake feasibility studies, develop mining operations and/or acquire new projects. Any additional financing through share issues will dilute existing shareholdings. Debt financing may not be available to support the scope and extent of proposed developments. If available, it may impose restrictions on operating activities or anticipated expansion of the Company's operations.

(e) **Resource Estimations**

Resources estimates are inherently imprecise as they are expressions of judgement at a particular time based on available information, interpreted using experience and resource modelling techniques. The estimates, while made by qualified professionals, may change over time as other information becomes available which differs from information known or predicted by past drilling, sampling and geological interpretation. Estimates remain subject to change which may adversely affect the Company's operations or the commercial viability of its projects.

(f) **Tenure and Access**

Mining and exploration tenements are subject to periodic renewal. There is no guarantee that current or future tenements or future applications for production tenements will be approved or that current exploration tenement applications will be granted.

Tenements are subject to numerous State-specific legislation conditions. The renewal of the term of a granted tenement (and grant of tenement applications) is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements. The imposition of new conditions either during the term of a tenement or upon renewal, or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(g) **Development and Mining**

Possible future development of mining operations at any of the Projects is also subject to numerous risks. The Company's operations may be delayed or prevented as a result of weather conditions, mechanical difficulties, shortage of technical expertise or equipment. There may be difficulties with obtaining government and/or third party approvals, operational difficulties encountered with extraction and production activities, unexpected shortages

or increase in the price of consumables, plant and equipment, cost overruns or lack of access to required levels of funding.

If the Company commences production, its operations may be curtailed or disrupted by a number of risks beyond its control such as environmental hazards, industrial accidents and disputes, technical failures, unusual or unexpected geological conditions, adverse weather conditions, fires, explosions and other accidents.

The Company's operations may be adversely affected by higher than anticipated ore treatment costs, worse than anticipated metallurgical conditions, fluctuations in base and metal prices or lack of availability of smelter capacity.

No assurance can be given that the Company will achieve commercial viability through development of any of its projects.

(h) **Native Title and Aboriginal Heritage**

The *Native Title Act 1993* (Cth) recognises certain rights of indigenous Australians over land where those rights have not been extinguished. These rights, where they exist, may impact on the ability of the Company to carry out exploration or obtain production tenements. In applying for certain production tenements, the Company must observe the provisions of Native Title legislation (where applicable) and Aboriginal Heritage legislation which protects Aboriginal sites and objects of significance.

In certain circumstances the consent of registered Native Title claimants must be obtained prior to carrying out certain activities on land to which their claim relates. It is possible that the terms of registered Native Title agreements may restrict the Company's ability to gain access to its tenements and conduct exploration, development and mining operations, or that the conditions imposed by Native Title claimants on such consent may be on terms unacceptable to the Company.

(i) **Compulsory Work Obligations**

Tenements are subject to expenditure and work commitments which must be met in order to keep such tenements in good standing. These commitments may be varied on application by the tenement holder but any such variation is at the sole discretion of the Minister administering the relevant State mining legislation. If no variation is approved, and there is failure to meet the commitments, this could lead to forfeiture of the tenement.

(j) **Environmental**

The Company's projects are subject to both the relevant State and also Commonwealth laws and regulations relating to environmental matters. Should the Company proceed to development of one or more mines, it could be expected that such developments would have numerous environmental impacts which would require various statutory approvals to be put in place. There is no guarantee that such approvals would be granted. The Company intends to conduct its operations in an environmentally responsible manner and in accordance with relevant legislation. However, the Company is unable

to predict the effect of future changes to environmental legislation or policy and the cost effect of such changes on its operations and financial position.

(k) **Joint Ventures**

The Company has entered into various farm-in and joint venture agreements in respect of its projects, or projects it has the right to earn into. Any interests the Company has in joint ventures could be affected by the failure or default of any of the joint venture participants.

(l) **Government Policies and Legislation**

The Company may be affected by changes to government policies, legislation and taxation. Changes in Government policies, legislation and taxation can have a significant influence on a business' prospects and return to investors. The Company's products could be subject to government regulation, and the regulatory approval and maintenance process for such products may be expensive, time-consuming, and uncertain both in timing and in outcome.

(m) **Insurance Risks**

The Company insures its business and operations. However, the Company's insurance may not be of a nature or level to provide adequate insurance cover to insure against the occurrence of all events that may impact on the operations of the Company. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial conditions and results of the Company.

Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

(n) **Competition Risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(o) **Litigation**

The Company may in the ordinary course of business be involved in possible disputes. These disputes could give rise to litigation. While the extent of any disputes and litigation cannot be ascertained at this time, any dispute or litigation may be costly and may adversely affect the operational and financial results of the Company.

3.3 **General Risk Factors**

(a) **Share Market Conditions**

Share market conditions may affect listed securities regardless of operating performance. Share market conditions are affected by many factors such as

general economic outlook, movements in, or outlook on interest rates and inflation rates, currency fluctuations, commodity prices, changes in investor sentiment towards particular market sectors, press newspaper and other media reports and the demand for, and supply of, capital. Investors should recognise that the price of the Shares may fall as well as rise. Many factors will affect the price of the Shares including those listed above.

(b) **Accounting Standards**

Changes in accounting standards and subjective assumptions, estimates, and judgements by management related to complex accounting matters could significantly affect the Company's financial results or financial position.

(c) **Taxation Risks**

Tax policies in the countries where the Company operates from time to time may change so as to adversely affect the profitability of the Company's operations, and where the Company trades internationally, it will be exposed to operational and financial risks associated with taxation in multiple jurisdictions.

(d) **Operational Risks**

The Company is exposed to a number of risks beyond its control, such as industrial actions and disputes or unusual or unexpected events such as fires or other accidents.

There may be difficulties with obtaining government and/or third party approvals, unexpected shortages or increase in the price of consumables, plant and equipment.

The Company's operations may be adversely affected by higher than anticipated costs or worse than anticipated fluctuations in prices and currencies.

No assurance can be given that the Company will achieve commercial viability through development of any of its projects.

(e) **Economic Conditions Risk**

The performance of the Company is likely to be affected by changes in economic conditions. Profitability of the business may be affected by some of the matters listed below:

- (1) future demand for minerals;
- (2) general financial issues which may affect policies, exchange rates, inflation and interest rates;
- (3) deterioration in economic conditions, possibly leading to reductions in spending and other potential revenues which could be expected to have a corresponding adverse impact on the Company's operating and financial performance;

- (4) the strength of the equity and share markets in Australia and throughout the world;
- (5) financial failure or default by any entity with which the Company may become involved in a contractual relationship;
- (6) industrial disputes in Australia and in countries in which the Company may trade or operate from time to time;
- (7) changes in investor sentiment towards particular market sectors;
- (8) the demand for, and supply of, capital; and
- (9) terrorism or other hostilities.

(f) **Other General Risks**

Other general risks associated with investment in the Company may include:

- (1) fluctuation of the price at which the Company's shares trade due to market factors; and
- (2) price volatility of the Company's shares in response to factors such as:
 - (A) additions or departures of key personnel;
 - (B) litigation and legislative change;
 - (C) press newspaper or other media reports; and
 - (D) actual or anticipated variations in the Company's operating results.

3.4 **Speculative Investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of New Shares offered under this Prospectus.

Therefore, New Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

4. ADDITIONAL INFORMATION

4.1 Rights and liabilities attaching to Shares

The New Shares will be of the same class and will, once issued, rank equally in all respects with existing Shares (including equal voting rights and equal rights to dividends, profits and capital). The rights and liabilities attaching to the New Shares are identical in all material respects to the terms of the existing Shares. The following is a summary of the principal rights of the holders of Shares. This summary is not exhaustive nor does it constitute a definitive statement of the rights and liabilities of Shareholders under the Constitution.

The Constitution may be inspected free of charge by appointment between 9.00 am and 5.00 pm (Adelaide time) on normal business days from the Opening Date up to and including the Closing Date at the registered office of the Company at: HLB Mann Judd (SA) Pty Ltd, 169 Fullarton Road, Dulwich SA 5065.

- (2) Voting at any meeting of Shareholders is by a show of hands unless a poll is demanded. A poll may be demanded by:
 - (A) at least five Shareholders entitled to vote on the resolution;

The Directors may refuse to register a transfer of Shares, in limited circumstances. The Directors must refuse to register a transfer of Shares where required to do so by the Listing Rules. The Directors may suspend the registration of a transfer at any time, and for any period, as permitted by the ASX Settlement Rules. Subject to the Listing Rules, Shares are freely transferable.

(g) Sale of non-marketable parcels

The Directors may cause the Company to sell a Shareholder's Shares if that Shareholder holds less than a marketable parcel of Shares, provided that the procedures set out in the Constitution are followed.
